

Quick
mental
arithmetic

A

Observe these two pages. You are going to do the same drawings as Geom. Your work has to be as neat as his. Squeaky has made three mistakes. Find them first.

B

Complete the number line on the following page.

A. Quick mental arithmetic:
same activity as on page 46

B. Re-drawing a shape on a grid. If we choose the procedure during which each shape is drawn clockwise starting from the blue dot, it is possible to analyze Squeaky's mistakes as follows: in the first shape, his first horizontal top line is too short; in the second shape...
