

Quick
mental
arithmetic

A

It takes 1 mouse for 2 cats. How many mice will it take?
Answer and check.

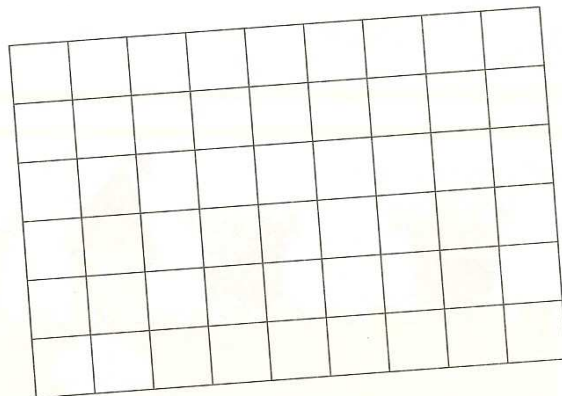

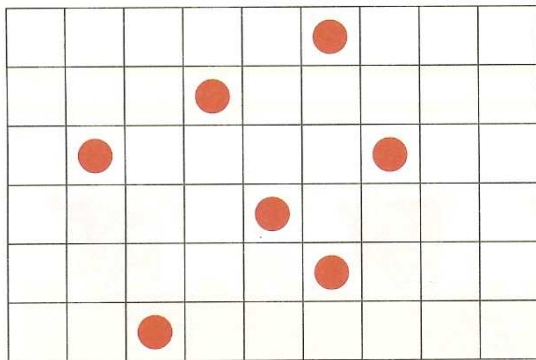

To check, cut out the right set of mice at the end of this book.
Then cut out 1 mouse and stick it in front of two cats.

It takes  mice.

B

In the second grid, place crosses in the same position as the dots which we can see in the first grid.

C

Write down the number in full. If you aren't sure, use the reference list on page 65.
